It's hard to believe that April is already here! Now if Spring can show up! Last month we had to cancel our Planting Roots Event due to the weather and the saturated ground. We will still be planting and working in our garden this month, but we will be doing it during school hours so that all the children will be able to participate. Once we have those dates and times, we will let you know. If you would like to come and help out in your child's class at that time, you are more than welcome too.

Its so exciting to see their minds at work as they talk about the process, and learn how important healthy eating is. Our favorite part is when its harvesting time and they get to sample all of their hard work!

## Piedmont Wildlife

In this engaging, hands-on experience, students will meet a variety of live animals such as turtles, snakes, a dove, an opossum and more. They will explore animal adaptations and learn key conservation messages. Children will have a look at fur, teeth, skulls, and other animal treasures.

"You're never too old, too wacky, too wild, to pick up a book and read to a child."  
-Dr. Seuss

The scholastic Book Fair was a huge success. Because of your support- we are able to purchase \$750.00 worth of books or other literacy material.

Don't forget to check out our Little Free Library. It's a great way to borrow books for a night or two!  
If you would like to donate to the Library, just let us know.
